

WIDE FORMAT PRINT & SCAN SOLUTIONS FOR MANUFACTURING

James Imaging Systems offers a comprehensive solution for a range of wide format printing and scanning tasks. Wide format printing and scanning solutions that provide performance, reliability and value with an exceptional low cost of operation. A cost-effective print scan solution for technical documents and display graphic creation to support engineering, manufacturing, architectural and construction applications.

OPTIMIZE WORKFLOW. INCREASE PRODUCTIVITY.

Outstanding workflow efficiency provides powerful print control with a range of functionality including a wide range of print applications, cloud printing, scan & copy, variable printing, advance color print quality and fully integrated stacking and folding. Designed for high demand, superior quality and workplace flexibility.

DESIGNED FOR PERFORMANCE & FUNCTIONALITY

Save time and money while ensuring extraordinary performance, reliability and workplace flexibility. Delivering outstanding image quality, accuracy, speed, security and color for the most demanding industrial print needs, while keeping costs low.

- Fast printing capabilities
- Simple, intuitive operation
- Automatic finishing proficiencies
- Superior image quality
- Outstanding reliability
- Extraordinary productivity
- Image durability

ENGINEERED FOR COLLABORATION & EFFICIENCY

Empower your workgroups to be highly efficient teams. Wide format printing solutions that support collaboration, enabling highly efficient teams to communicate, print and share effectively.

- State of the art technology
- Workflow automation
- Compact design
- Precision imaging
- Workplace efficiency
- Best in class security
- Unprecedented collaboration

PRINT | COPY | SCAN | SHARE

Providing trusted quality and reliability along with smart scanning technology to protect originals from damage. Sharing capabilities allow you to scan, email, and send drafts to partners in seconds, all right from the printer.

INDUSTRIAL APPLICATIONS

Engineering

- CAD and MCAD drawings
- Renderings
- Clear film overlays

Manufacturing/Production

- Template prints
- CAD and MCAD drawings

Project Management

- Charts & posters

Facility Management

- Floor plans & signage
